SWOT ANALYSIS

Annexure III

Best Practice

Practice #1

Title

Environmental awareness

Goal

To create awareness about the environment among the student community.

The Context

Due to the socio-economic background of our students, we have observed a general lack of awareness about the environment.

The Practice

We try to create a general awareness on how important it is to preserve the environment by having a plastic free zone in and around the campus, we also encourage students to plant trees so that we have a greener and a cleaner tomorrow.

We have also conducted workshops in the college to create general awareness about the environmental biodiversity.

Evidence of Success

Today, our campus is greener compared to many campuses in the surrounding areas. We have also been able to successfully create a plastic free zone.

Problems Encountered and Resources Required

The college does not have enough resources to organize workshops and invite external advisors. We still, try to work with our limited resources and bring the best out of it.
